

3

Now create bar models to prove that your answers to question 2 are correct. Here is an example

$$1/4 = 2/8$$

a.)

e.)

b.)

f.)

c.)

d.)

Think about a bar of chocolate that has 8 equal pieces

1. Would you rather have $1/2$ of the chocolate or $4/8$?
SAME
2. Would you rather have $4/8$ or $1/4$? $4/8$
3. Would you rather have $6/8$ or $2/4$? $6/8$
4. Would you rather have $2/2$ or $7/8$? $2/2$
5. Would you rather have $1/8$ or $2/16$? SAME
