

3

Now create bar models to prove that your answers to question 2 are correct. Here is an example

$$1/4 = 2/8$$

a.)

e.)

b.)

F.)

c.)

d.)

Think about a bar of chocolate that has 8 equal pieces

1. Would you rather have $1/2$ of the chocolate or $4/8$?
2. Would you rather have $4/8$ or $1/4$?
3. Would you rather have $6/8$ or $2/4$?
4. Would you rather have $2/2$ or $7/8$?
5. Would you rather have $1/8$ or $2/16$?
